PAKISTAN POWER
ENGINEERING SERVICES

SINCE 2010

POWERING PROGRESS
DELIVERING EXCELLENCE

ABOUT COMPANY

Pakistan Power Engineering Services is a Karachi-based electrical engineering company providing maintenance, testing, commissioning, repair and supply of power transformers, medium-voltage switchgear, protection systems and related equipment for industrial, commercial and utility clients.

Our teams combine hands-on field experience with manufacturer-recommended procedures and IEC-aligned testing practices, so every job is safe, reliable and fully documented.

SINCE 2010
Serving the power sector in Karachi

INDUSTRIAL · COMMERCIAL · UTILITY
Sectors we support

MULTI-BRAND EXPERTISE
Siemens · Schneider · ABB · GE

TEST-BACKED WORK
Documented reports and records

OUR MISSION

To deliver reliable, efficient and cost-effective electrical engineering services through quality workmanship, safe practices and transparent communication.

OUR VISION

To be a trusted engineering partner for power systems in Pakistan, recognised for technical competence, integrity and long-term client relationships.

CORE VALUES

- Safety First
- Integrity & Transparency
- Technical Excellence
- Customer Focus
- Continuous Learning

WHAT WE DO

POWER TRANSFORMERS
Installation, testing, oil treatment and overhaul.

MV SWITCHGEAR & VCBS
Maintenance, testing, repair and retrofit.

TESTING & COMMISSIONING
Relay, CT/PT, insulation and system tests.

PROTECTION & CONTROL
Relay settings, metering and control circuits.

MV EQUIPMENT SUPPLY
Supply and installation of MV equipment.

WHY CHOOSE US?

QUALITY WORKMANSHIP
Careful execution and testing at every stage.

EXPERIENCED TEAM
Engineers and technicians with field-proven skills.

TIMELY DELIVERY
Planned schedules and clear communication.

SAFETY FOCUSED
Strict PPE, permit and isolation practices.

RESPONSIVE SUPPORT
Prompt response to breakdowns and urgent call-outs.

OUR APPROACH

1 ASSESS › 2 PLAN › 3 EXECUTE › 4 TEST › 5 HAND OVER

PAKISTAN POWER
ENGINEERING SERVICES

SINCE 2010

POWERING PROGRESS
DELIVERING EXCELLENCE

POWER TRANSFORMER SERVICES

DRY-TYPE & OIL-IMMERSED

Comprehensive installation, testing, maintenance and refurbishment services for dry-type and oil-immersed transformers, for maximum reliability and long service life.

OUR SERVICES

REPAIR, MAINTENANCE & TESTING
Complete repair, routine maintenance and testing of dry-type and oil-immersed transformers.

INSTALLATION, ERECTION & COMMISSIONING
Safe handling, erection, connection and commissioning of power transformers.

PREVENTIVE & CORRECTIVE MAINTENANCE
Scheduled maintenance programmes and prompt fault rectification.

DIAGNOSTIC TESTING & CONDITION ASSESSMENT
Ratio, winding resistance, insulation and oil tests for early fault detection.

OIL FILTRATION & DEHYDRATION
Filtration and purification of insulating oil to restore dielectric strength.

VACUUM DEHYDRATION & MOISTURE REMOVAL
Vacuum drying to remove moisture and improve insulation strength.

FAULT DIAGNOSIS & TROUBLESHOOTING
Accurate fault finding for quick and lasting resolution.

BUSHINGS, GASKETS, OLTC & ACCESSORIES
Replacement of bushings, gaskets, OLTC components and accessories.

OVERHAULING & REFURBISHMENT
Complete overhaul to restore performance and extend service life.

ELECTRICAL TESTING & VERIFICATION
Pre-energisation checks and performance verification before handover.

DRY-TYPE TRANSFORMERS
- Cast resin / VPI transformers
- Maintenance & repair
- Insulation & functional testing
- Cleaning & refurbishment

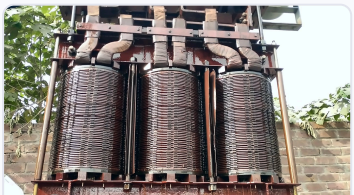

OIL-IMMERSED TRANSFORMERS
- Conservator & sealed types
- Oil filtration & degassing
- Active-part inspection & overhaul
- Routine & advanced testing

PAKISTAN POWER
ENGINEERING SERVICES

SINCE 2010

POWERING PROGRESS
DELIVERING EXCELLENCE

VCB & MV PANELS MAINTENANCE, TESTING & REPAIR

We keep your medium-voltage panels and vacuum circuit breakers operating safely and reliably through expert maintenance, advanced testing and quality repairs.

KEY BENEFITS

ENHANCED RELIABILITY
Minimised downtime and improved system reliability.

SAFETY ASSURED
Reduced risk of electrical faults and hazards.

COST EFFECTIVE
Preventive maintenance avoids costly breakdowns.

LONG EQUIPMENT LIFE
Regular servicing extends the life of panels and VCBs.

OPTIMAL PERFORMANCE
Panels and breakers operate at maximum efficiency.

EXPERT SUPPORT
Skilled engineers and technicians for peace of mind.

OUR SERVICES

- Preventive & Corrective Maintenance
- Inspection & Troubleshooting
- Fault Diagnosis & Analysis
- Repair & Replacement Services
- Protection Checks & Calibration
- Insulation Resistance Testing
- Functional & Performance Testing
- Commissioning Support

PROTECTION, CONTROL & METERING SOLUTIONS

We configure, test and maintain the protection, metering and control systems that keep your electrical network safe, selective and fully monitored.

OUR SOLUTIONS

PROTECTION RELAYS
Overcurrent, earth-fault, differential, generator and transformer protection relays.

RELAY SETTINGS & COORDINATION
Settings review, coordination checks and secondary injection testing.

CT / PT TESTING
Ratio, polarity, excitation and burden verification of instrument transformers.

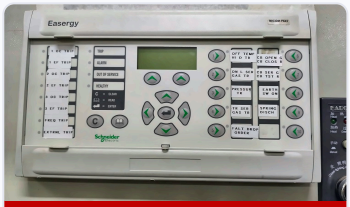

METERING & ENERGY ANALYSERS
Installation, wiring and commissioning of meters and power analysers.

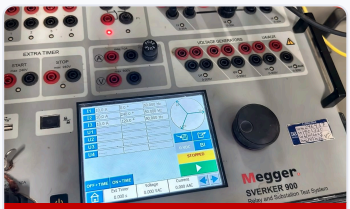

CONTROL, ANNUNCIATION & INTERLOCKS
Control circuits, annunciator panels and interlocking verification.

PANEL WIRING & MODIFICATIONS
Control wiring, retrofits and modifications with neat, labelled termination.

RELAYS & TEST EQUIPMENT IN THE FIELD

GENERATOR PROTECTION RELAY

TRANSFORMER DIFFERENTIAL RELAY

RELAY & SUBSTATION TEST SET

CT / PT ANALYSER TEST

Platforms we work with:

Schneider Electric (Easergy / MiCOM)
GE Vernova (MiCOM P40 Agile)
ABB
Siemens
Fanox

WHAT WE OFFER

CUSTOMISED SOLUTIONS
Tailored to your network and process.

RELIABLE & ACCURATE
Calibrated test equipment, verified results.

INTEGRATION EXPERTISE
Works with your existing panels and brands.

IMPROVED UPTIME
Fewer trips and faster fault recovery.

ON-SITE SUPPORT
From inspection through commissioning.

MODERN TEST EQUIPMENT | VERIFIED SETTINGS | MAXIMUM RELIABILITY | DOCUMENTED REPORTS | SAFE OPERATION

DELIVERING EXCELLENCE

SUPPLY & INSTALLATION OF MV ELECTRICAL EQUIPMENT

We supply quality medium-voltage electrical equipment and ensure professional installation for safe, reliable and continuous power distribution.

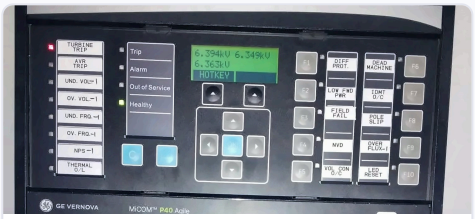

EQUIPMENT WE SUPPLY & INSTALL

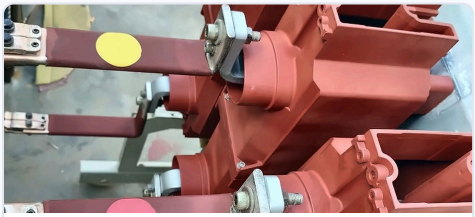

CURRENT TRANSFORMERS (CT)
High-accuracy CTs for metering and protection duties.

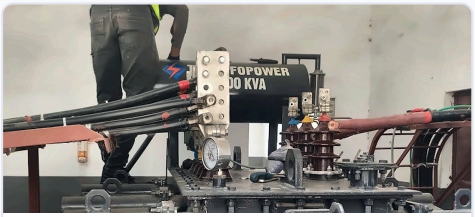

POTENTIAL TRANSFORMERS (PT)
Reliable PTs and fuses for voltage measurement and protection.

PROTECTION RELAYS
Advanced numerical relays for fast, selective protection.

VCBS & EPOXY INSULATORS
Vacuum circuit breakers and cast-resin insulating components.

CABLE KITS & TERMINATIONS
Heat-shrink and cold-shrink kits for safe, lasting terminations.

BUSBARS & ACCESSORIES
Copper / aluminium busbars with insulation and phase marking.

OUR INSTALLATION SERVICES

- Site survey and technical evaluation
- Proper handling and transportation
- Installation by experienced engineers
- Testing, commissioning and system verification
- Documentation and as-built drawings
- Post-installation support and maintenance

BRANDS WE WORK WITH

PAKISTAN POWER
ENGINEERING SERVICES

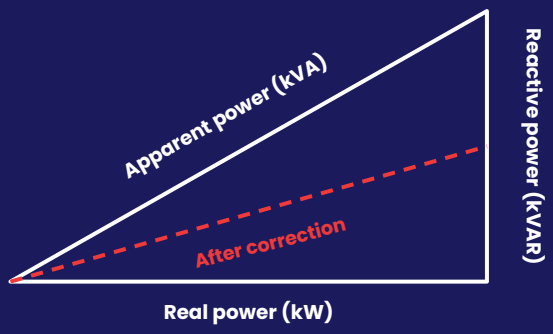

SINCE 2010

POWERING PROGRESS
DELIVERING EXCELLENCE

POWER FACTOR IMPROVEMENT (PFI) SOLUTIONS

Our PFI solutions help industries reduce energy costs, improve system efficiency, minimise losses and enhance overall power quality through correctly sized capacitor banks and APFC panels.

Capacitors supply reactive power locally, reducing kVA demand and line current.

BENEFITS

REDUCE ENERGY COSTS
Lower reactive-power charges and avoid utility penalties.

IMPROVE SYSTEM EFFICIENCY
Better power factor and equipment utilisation.

REDUCE LOSSES
Less I^2R loss and voltage drop in cables and transformers.

ENHANCE EQUIPMENT LIFE
Reduced stress and overheating on equipment.

IMPROVE POWER QUALITY
Stable voltage and reduced flicker.

FEATURES

- **Automatic Power Factor Correction** — APFC relay for accurate, real-time correction.
- **High-Quality Capacitors** — Heavy-duty capacitors for long, reliable service.
- **Detuned / Harmonic Filter Options** — Reactors that protect capacitors in harmonic-rich networks.
- **Robust & Reliable Design** — Built for continuous duty in industrial environments.
- **Modular & Scalable** — Flexible stages to suit changing load.
- **Comprehensive Protection** — Over-current, voltage and over-temperature protection.

APPLICATIONS

- INDUSTRIAL PLANTS
- COMMERCIAL BUILDINGS
- PUMPING STATIONS
- MANUFACTURING UNITS
- HVAC SYSTEMS
- WELDING MACHINES
- TRANSFORMER SYSTEMS
- POWER DISTRIBUTION

WHY POWER FACTOR MATTERS

- Lower kVA demand for the same kW
- Avoid low-PF surcharges (per your tariff)
- Frees up transformer and cable capacity
- Typical target: PF 0.95 or higher

PFI PANEL TYPES WE OFFER

FIXED CAPACITOR BANK
For constant, predictable reactive load.

AUTOMATIC PFI PANEL (APFC)
Multi-stage switching controlled by APFC relay.

DETUNED PFI PANEL
Capacitors with series reactors for harmonic networks.

OUR PFI SOLUTION PROCESS

1. **SITE SURVEY & LOAD ANALYSIS** — Load profile and power-quality review.
2. **DESIGN & ENGINEERING** — kVAR sizing and panel design.
3. **SUPPLY & INSTALLATION** — Quality equipment, neat installation.
4. **TESTING & COMMISSIONING** — Verified before handover.
5. **SUPPORT & MAINTENANCE** — Servicing and performance checks.

LOWER ENERGY BILLS | HIGHER EFFICIENCY | REDUCED LOSSES | LONGER EQUIPMENT LIFE | BETTER POWER QUALITY

TESTING, COMMISSIONING & MAINTENANCE SOLUTIONS

We ensure the reliability, safety and optimal performance of your electrical systems through comprehensive testing, professional commissioning and ongoing maintenance.

OUR TESTING & COMMISSIONING SERVICES

PRE-COMMISSIONING TESTING
Inspection and testing before energisation to confirm system readiness.

COMMISSIONING SERVICES
Professional commissioning to verify functionality and performance.

PROTECTIVE RELAY TESTING
Secondary-injection testing of protection relays for correct operation.

INSULATION RESISTANCE TESTING
Confirms insulation levels and helps prevent electrical failures.

TRANSFORMER OIL TESTING
Oil sampling and dielectric tests to assess transformer health.

DETAILED REPORTING
Clear test reports with findings and recommendations.

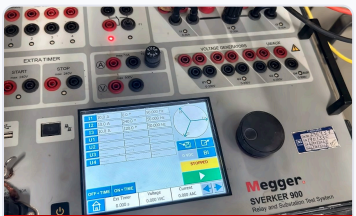

ROUTINE & PREVENTIVE MAINTENANCE

- SCHEDULED MAINTENANCE
- CONDITION MONITORING
- PREVENTIVE SERVICING
- BREAKDOWN SUPPORT
- RELIABILITY IMPROVEMENT

WHY CHOOSE US

- Experienced and trained engineers
- Modern testing and diagnostic equipment
- Strict safety standards
- Timely and reliable service
- Clear documentation of every test

TURNKEY ELECTRICAL ENGINEERING SOLUTIONS

From concept to commissioning, we deliver complete turnkey solutions tailored to your project requirements with precision, efficiency and reliability.

OUR TURNKEY PROCESS

1. **CONSULTATION & PLANNING**
   We understand your requirements and develop a detailed project plan.
2. **DESIGN & ENGINEERING**
   Efficient, safe and cost-effective electrical designs.
3. **PROCUREMENT**
   High-quality materials and equipment from trusted manufacturers.
4. **INSTALLATION & TESTING**
   Professional installation with rigorous testing.
5. **COMMISSIONING**
   System energisation and smooth handover to the client.
6. **AFTER-SALES SUPPORT**
   Ongoing maintenance and support for reliable operation.

OUR CAPABILITIES

- ELECTRICAL SYSTEM DESIGN
- POWER DISTRIBUTION SOLUTIONS
- PANEL INSTALLATION & RETROFIT
- TESTING & COMMISSIONING
- PROTECTION & CONTROL SYSTEMS
- TRANSFORMER INSTALLATION
- CABLING & TERMINATION
- LIGHTING & EARTHING SYSTEMS
- INDUSTRIAL ELECTRIFICATION
- OPERATION & MAINTENANCE

SECTORS WE SUPPORT

- POWER & ENERGY
- OIL & GAS
- MANUFACTURING & MILLS
- WATER & WASTEWATER
- CEMENT & HEAVY INDUSTRY
- COMMERCIAL & INFRASTRUCTURE

QUALITY ASSURANCE

- Quality materials and equipment from trusted manufacturers
- Work in line with manufacturer guidelines and IEC practices
- Rigorous testing at every stage
- Skilled and experienced engineering team
- Documented handover and records

OUR COMMITMENT

We are committed to delivering **safe, reliable** and practical electrical engineering solutions that exceed client expectations and contribute to a **sustainable future**.

POWERING PROGRESS
DELIVERING EXCELLENCE

ENGINEERING EXPERTISE FOR A SMARTER TOMORROW

We combine engineering expertise, modern testing technology and industry best practice to deliver dependable solutions that drive performance, reliability and growth.

OUR CORE VALUES

SAFETY FIRST
We prioritise safety in everything we design, install and maintain.

QUALITY COMMITMENT
Superior workmanship that follows manufacturer and IEC practices.

INNOVATION
Modern test equipment and practical, up-to-date methods.

CUSTOMER FOCUS
Understanding client needs and delivering tailored solutions.

INTEGRITY
Honesty, transparency and professional responsibility.

SUSTAINABILITY
Efficient solutions that support a cleaner, responsible future.

WHY CHOOSE PAKISTAN POWER ENGINEERING SERVICES?

EXPERIENCED PROFESSIONALS
Skilled engineers with field-proven expertise.

MODERN EQUIPMENT
Up-to-date tools for accurate testing.

SAFE & RELIABLE
Solutions designed for long-term performance.

ON-TIME DELIVERY
Projects planned and delivered on schedule.

COST EFFECTIVE
Optimised solutions with strong value.

RESPONSIVE SUPPORT
Quick response whenever you need us.

OUR SERVICE PROMISE

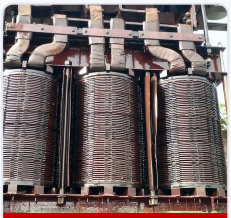

We are committed to delivering engineering solutions that exceed expectations and create long-term value for our clients and communities.
