PAKISTAN POWER
ENGINEERING SERVICES

SINCE 2010

POWERING PROGRESS
DELIVERING EXCELLENCE

ABOUT COMPANY

Pakistan Power Engineering Services is a specialised industrial power engineering company delivering **power transformers** across kVA & MVA ratings (supply, repairing, coil rewinding, high-vacuum oil filtration & BDV testing), **HV / MV (HT VCB, RMU) and LV (PCC, MCC, APFC) switchgear panels**, turnkey substations and numerical protection relay calibration (MiCOM, ABB, Schneider, Siemens).

We serve industrial, commercial and utility clients across Pakistan, in line with international engineering standards and customer-specified requirements.

15+	50+	500+	100+
Years of experience	Skilled professionals	Projects completed	Satisfied clients

OUR MISSION

To deliver reliable, efficient and cost-effective engineering solutions through innovation, quality and commitment. Safety is our first priority, and every project is kept cost-effective to the customer's needs.

OUR VISION

To be the most trusted engineering solutions partner, recognised for excellence, integrity and sustainable growth — the leading electrical engineering firm in Pakistan for reliability and customer satisfaction.

CORE VALUES

- Integrity & Transparency
- Quality & Excellence
- Customer Satisfaction
- Safety First
- Continuous Improvement

WHAT WE DO

POWER TRANSFORMERS
Supply, repairing, rewinding, oil filtration, testing.

HT / MV SWITCHGEAR
11 kV VCB & RMU maintenance, testing, retrofit.

LT, PCC & MCC PANELS
In-house manufacturing up to 6300 A.

TESTING & RELAYS
MiCOM relay, Megger, Hi-Pot, injection tests.

SUBSTATION SETUP
A-to-Z design, supply, erection and handover.

WHY CHOOSE US?

QUALITY ENGINEERING
Highest standards in every project.

SKILLED TEAM
Engineers with extensive field experience.

PROJECT EFFICIENCY
Delivered on time and within budget.

PRECISION & SAFETY
Strict safety protocols and standards.

24/7 FIELD SUPPORT
Breakdown and emergency support.

OUR 6-STEP PROJECT EXECUTION

1. ASSESSMENT
2. ENGINEERING
3. MANUFACTURING
4. INSTALLATION
5. TESTING & COMMISSIONING
6. MAINTENANCE & SUPPORT

PAKISTAN POWER
ENGINEERING SERVICES

SINCE 2010

POWERING PROGRESS
DELIVERING EXCELLENCE

POWER TRANSFORMER SERVICES

Supply, repairing, rewinding, high-vacuum oil filtration, testing and commissioning of oil-immersed and dry-type transformers across all kVA and MVA ratings.

OUR SERVICES

HV & LV COIL REWINDING
Workshop rewinding with 99.9% electrolytic copper, Nomex / Kraft insulation, core restacking and oven curing.

HIGH-VACUUM OIL FILTRATION
Mobile two-stage plants remove moisture, gases and sludge, restoring oil BDV above 60 kV.

REPAIR & OVERHAULING
Tank leak welding, gasket replacement, radiator flushing and conservator refurbishment.

INSTALLATION & COMMISSIONING
Crane rigging, positioning, connection and energised utility handover.

DIAGNOSTIC TESTING
TTR, winding resistance, Megger IR / PI, magnetic balance, vector group, tan delta.

OLTC & OCTC TAP CHANGERS
Servicing and overhaul of on-load and off-circuit tap changers.

PROTECTION CALIBRATION
Buchholz, PRV, OTI and WTI testing, trip verification and calibration.

DRY-TYPE CAST RESIN & VPI
De-dusting, insulation checks, hot-air drying and thermal controller calibration.

SUPPLY: NEW & RECONDITIONED
Oil-immersed and dry-type, 50 kVA to multi-MVA, Dyn11, to IEC 60076 / K-Electric norms.

24/7 BREAKDOWN & AMC
Rapid field teams for fault isolation, emergency repair and annual maintenance contracts.

DRY-TYPE TRANSFORMERS
- Cast resin & VPI, Class F / H
- Maintenance & repair
- Insulation & thermal controller tests
- Cleaning, drying & refurbishment

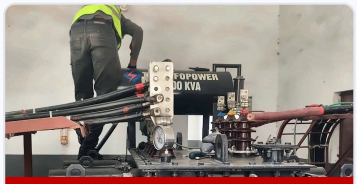

OIL-IMMERSED TRANSFORMERS
- Conservator & hermetically sealed
- Oil filtration & degassing
- Active-part inspection & rewinding
- Routine & advanced testing

TRANSFORMER WORK IN THE FIELD

TRANSFORMER ERECTION

ACTIVE-PART OVERHAUL

CABLE TERMINATION

MOBILE OIL FILTRATION

On-site mobilisation: Karachi, Hub, Nooriabad, Lahore, Faisalabad, Sheikhupura, Gujranwala, Multan, Islamabad and Peshawar. Test reports in line with IEC 60076 and IEC 60296.

OIL BDV ABOVE 60 KV | ALL KVA & MVA RATINGS | IEC 60076 / 60296 TEST REPORTS | NATIONWIDE MOBILISATION | 24/7 BREAKDOWN SUPPORT

PAKISTAN POWER
ENGINEERING SERVICES

SINCE 2010

POWERING PROGRESS
DELIVERING EXCELLENCE

11 KV VCB & MV SWITCHGEAR PANELS

MAINTENANCE · TESTING · RETROFITTING

Complete maintenance, testing and refurbishment of 11 kV vacuum circuit breakers, ring main units and medium-voltage panels, including retrofits.

KEY BENEFITS

11 KV SPECIALISTS
Engineers experienced with fault levels up to 25 / 31.5 kA.

OPERATOR SAFETY
Interlock, padlock and earthing-switch inspection reduces arc-flash risk.

MINIMAL DOWNTIME
Fast breaker servicing, spare stocking and planned shutdowns.

NATIONWIDE SERVICE
Teams for Sindh, Punjab, KPK, Balochistan and Islamabad.

UTILITY COMPLIANCE
Aligned with K-Electric, LESCO, IESCO, FESCO and NEPRA codes.

COST-EFFECTIVE RETROFIT
Fit modern vacuum breakers into existing cubicles.

OUR SERVICES

- 11 kV VCB Overhaul & Maintenance
- RMU Servicing & Gas Pressure Checks
- Relay Calibration (MiCOM, ABB, Schneider, Siemens)
- Contact Resistance & Breaker Timing
- 11 kV Cable Termination & Hi-Pot Testing
- Busbar & Flashover Repair
- CT / PT Ratio, Polarity & Excitation Tests
- Breaker Retrofit (OCB → VCB)

24/7 emergency substation breakdown support: tripped breakers, interlock jams and power restoration.

PAKISTAN POWER
ENGINEERING SERVICES

SINCE 2010

POWERING PROGRESS
DELIVERING EXCELLENCE

LT, PCC & MCC PANELS MANUFACTURING

MANUFACTURING & ASSEMBLY
In-house design, fabrication, assembly and testing of LT switchgear, power control centres, motor control centres and distribution boards up to 6300 A.

WHAT WE MANUFACTURE

PCC PANELS UP TO 6300 A
Drawout ACB power control centres with copper busbars, IEC compliant.

MCC PANELS
DOL, star-delta, soft starters and VFD motor control centres.

APFC PANELS
Automatic power factor correction boards (see PFI section).

DISTRIBUTION BOARDS
MDB, SDB, lighting panels and feeder pillars for plants and complexes.

BREAKER TESTING & MAINTENANCE
ACB / MCCB injection testing, contact resistance and refurbishment.

ATS / AMF & SYNCHRONISING
Automatic mains-failure and generator synchronising panels.

BUILT TO LAST

- CNC-punched CRCA sheet steel with electrostatic powder coating
- Enclosures up to IP54 / IP55 for dust and moisture
- 99.9% electrolytic copper busbars, heat-shrink insulated
- Short-circuit withstand up to 50 / 65 / 85 kA for 1 s
- Electrical and mechanical (Castle) interlocking schemes
- Phase failure, under / over voltage and earth-leakage protection
- Factory acceptance testing (FAT) and test certification

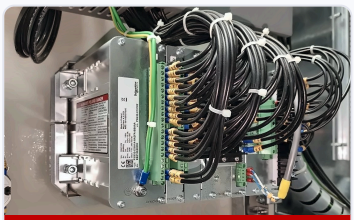

Tier-1 components: Schneider Electric, Siemens, ABB, Mitsubishi Electric, LS Electric and Terasaki.

PANELS & BREAKERS IN THE FIELD

ACB PROTECTION TESTING

ACB & GENSET PANEL MAINTENANCE

PANEL CONTROL WIRING

TERMINATIONS & LABELLING

Nationwide delivery, erection & commissioning — positioning, busbar trunking connection, cable termination and site commissioning, backed by 24/7 after-sales and emergency support.

PAKISTAN POWER
ENGINEERING SERVICES

SINCE 2010

POWERING PROGRESS
DELIVERING EXCELLENCE

TESTING, RELAYS & COMMISSIONING

Electrical testing and commissioning of transformers, HT / MV and LT switchgear, substations and all types of MiCOM, ABB, Schneider and Siemens numerical protection relays.

TESTING & COMMISSIONING SERVICES

MICOM & NUMERICAL RELAY TESTING
P12x, P14x, P63x, ABB, Schneider and Siemens relays: settings, curves and trip timing.

PRIMARY & SECONDARY INJECTION
Primary injection of CTs and protection loops; three-phase secondary injection.

MEGGER (IR / PI) & HI-POT
5 kV / 10 kV insulation testing, polarisation index and AC / DC Hi-Pot.

VCB TIMING & CONTACT RESISTANCE
Micro-ohm (ductor) testing and open / close timing of VCBs and ACBs.

TRANSFORMER DIAGNOSTICS
TTR, winding resistance, magnetic balance, vector group and oil BDV.

EARTH PIT & EARTHING GRID
Fall-of-potential earth resistance and earth-loop impedance testing.

PRE-COMMISSIONING & ENERGISATION
Cold and hot protocols, phase sequence, trip tests with interlocks.

REPORTS & HANDOVER
Test certificates with calibration values, trip times and insulation curves.

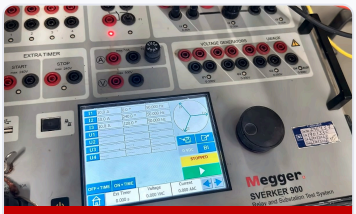

WHAT WE TEST

- 11 KV SUBSTATION SWITCHGEAR
- POWER TRANSFORMERS
- PCC / MCC PANELS
- 11 KV HT XLPE CABLES
- RING MAIN UNITS (RMU)
- UTILITY INCOMER FEEDERS

WHY CHOOSE US

- Certified power engineers with 11 kV experience
- Calibrated Omicron, Megger and Programma test sets
- LOTO, protective earthing, IEC / NEPRA safety practice
- Nationwide rapid mobilisation

TESTING IN THE FIELD

RELAY & SUBSTATION TEST SET

CT / PT ANALYSER

HV DC DIELECTRIC TEST SET

VCB INSPECTION & TESTING

PAKISTAN POWER
ENGINEERING SERVICES

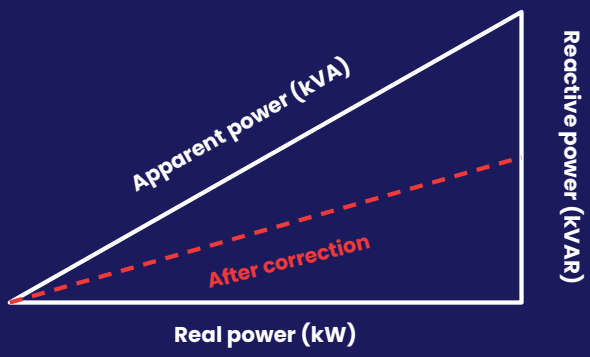

SINCE 2010

POWERING PROGRESS
DELIVERING EXCELLENCE

POWER FACTOR IMPROVEMENT (PFI / APFC)

In-house manufacturing of automatic power factor correction panels and detuned harmonic filter banks, with on-site delivery, coupling and live commissioning across Pakistan.

Capacitors supply reactive power locally, reducing kVA demand and line current.

BENEFITS

ELIMINATE PF PENALTIES
Remove low-power-factor surcharges (K-Electric, LESCO, IESCO, FESCO and other DISCOs).

TARGET PF 0.98 – 0.99
Near-unity PF; controller programmable up to 0.99.

LOWER I²R LOSSES
Less current, less heating; frees kVA capacity on main transformers.

LONGER ASSET LIFE
Reduced thermal stress on cables, transformers and switchgear.

FAST RETURN
Typical payback in 3-6 months, depending on load and tariff.

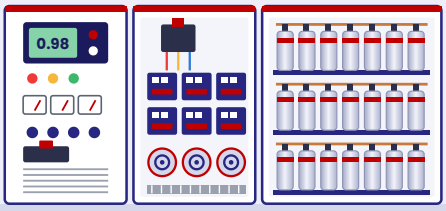

WHAT WE BUILD

- **Custom APFC Panels** — Microprocessor controllers, 6 / 8 / 12 / 14 steps, Modbus.
- **Detuned Reactor Banks** — 7% (189 Hz) and 14% (134 Hz) for harmonic networks.
- **Heavy-Duty Capacitors** — Self-healing dry-type, 440 / 480 / 525 V, tear-off disconnector.
- **Capacitor-Duty Contactors** — Pre-charge damping resistors limit inrush current.
- **Power Quality Audit** — On-site logging and harmonic analysis.
- **Testing & Maintenance** — Capacitance tests, thermography, fuse and contactor service.

APPLICATIONS

- TEXTILE MILLS
- STEEL & FURNACES
- CEMENT & CHEMICAL
- TOWERS & MALLS
- PLASTIC MOULDING
- HOSPITALS
- PUMPING STATIONS
- ENGINEERING WORKS

TARGET POWER FACTOR
0.98 – 0.99
Optimises sanctioned load and transformer capacity while removing utility PF penalties.

APFC PANEL (ILLUSTRATION)
Controller & incomer, capacitor-duty contactors with reactors, and capacitor banks in a compartmentalised panel.

FIXED CAPACITOR BANK
Constant, predictable reactive load.

AUTOMATIC PFI PANEL (APFC)
Multi-stage switching by APFC controller.

DETUNED PFI PANEL
Series reactors for harmonic networks.

OUR PFI SOLUTION PROCESS

1. **SITE SURVEY & ENGINEERING** — Load profile and power-quality analysis.
2. **DESIGN & ENGINEERING** — Customised solution for efficiency and reliability.
3. **SUPPLY & INSTALLATION** — Quality equipment, professional installation.
4. **TESTING & COMMISSIONING** — Rigorous testing for optimum performance.
5. **SUPPORT & MAINTENANCE** — Continuous support for sustained savings.

LOWER ENERGY BILLS | PF UP TO 0.99 | REDUCED LOSSES | LONGER EQUIPMENT LIFE | BETTER POWER QUALITY

PAKISTAN POWER
ENGINEERING SERVICES

SINCE 2010

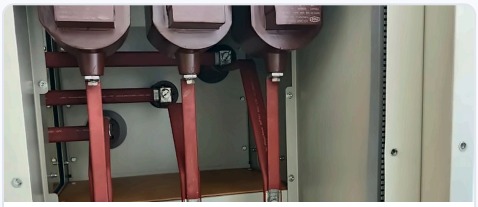

POWERING PROGRESS
DELIVERING EXCELLENCE

SUPPLY OF MV / LV ELECTRICAL EQUIPMENT

Supply, installation and integration of transformers, 11 kV switchgear, relays, instrument transformers, cable kits and LT breakers for industrial, commercial and utility projects.

EQUIPMENT WE SUPPLY & INSTALL

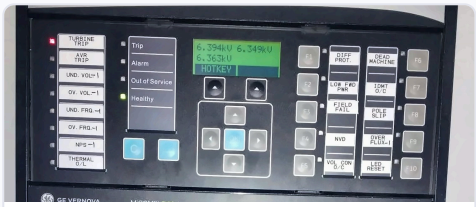

CURRENT TRANSFORMERS (CT)

Cast-resin 11 kV CTs: metering and 5P10 / 5P20 protection class.

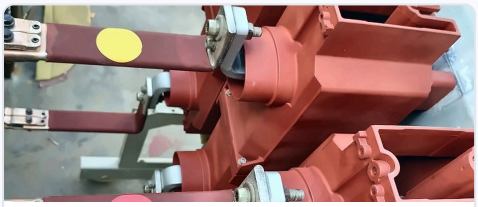

POTENTIAL TRANSFORMERS (PT)

11 kV PTs and fuses for tariff metering and control.

PROTECTION RELAYS

MiCOM (P12x, P14x, P63x), ABB and Schneider numerical relays.

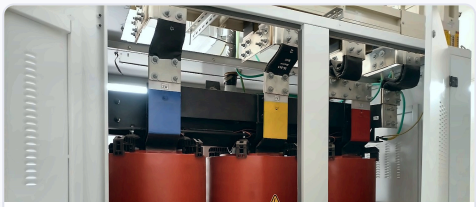

11 KV VCBS & INSULATORS

Drawout and fixed VCBs, 630 - 3150 A, 25 / 31.5 kA; epoxy insulators.

CABLE KITS & TERMINATIONS

11 kV XLPE heat-shrink and cold-shrink termination and joint kits.

BUSBARS & INSULATORS

99.9% electrolytic copper busbars with heat-shrink insulation, up to 6300 A.

POWER TRANSFORMERS

Oil-immersed and dry-type, new and reconditioned.

RING MAIN UNITS

SF6 and vacuum RMUs, extensible and non-extensible.

LT BREAKERS

ACBs up to 6300 A, MCCBs, contactors, ATS switches.

SPARES & ACCESSORIES

Ex-stock CTs, PTs, relays and cable kits.

OUR SUPPLY PROMISE

- Factory acceptance testing and type-test certificates
- OEM warranty and genuine component sourcing
- Supply plus installation, termination, testing and commissioning
- Compliance with IEC 60076, IEC 62271 and K-Electric / DISCO requirements

BRANDS WE WORK WITH

Schneider Electric · Siemens · ABB · Mitsubishi Electric · LS Electric · Terasaki · Hyundai · PEL · Transfopower · MiCOM Relays

Brand names are trademarks of their respective owners, listed to indicate sourcing and equipment experience.

DELIVERING EXCELLENCE

COMPLETE SUBSTATION SETUP A-TO-Z SOLUTIONS

From concept to energised commissioning, we deliver complete 11 kV substation and electrical solutions with precision, efficiency and reliability, since 2010.

OUR COMPLETE EXECUTION PROCESS

1. **SITE SURVEY & LOAD ASSESSMENT**
   Load study, SLD review, fault level calculation and utility infeed compliance.
   Load Study | SLD | Fault Level

2. **DESIGN & SWITCHGEAR ENGINEERING**
   AutoCAD design of HV, MV and LV panels, busbar sizing, protection coordination and BOQ.
   AutoCAD | Busbar Sizing | BOQ

3. **IN-HOUSE PANEL MANUFACTURING**
   CNC punching, powder coating, copper busbars and tier-1 breakers with factory acceptance testing.
   CNC | Powder Coating | FAT

4. **ERECTION, CABLING & TERMINATION**
   Transformer positioning, switchgear alignment, 11 kV cable laying, jointing and earthing grid.
   11 kV Cables | Jointing | Earthing

5. **TESTING, RELAYS & COMMISSIONING**
   Primary / secondary injection, relay configuration, CT / PT, Megger, Hi-Pot, oil BDV and energisation.
   Injection | Megger | Hi-Pot | BDV

6. **MAINTENANCE & 24/7 SUPPORT**
   Preventive maintenance, trolley overhauling, oil filtration and emergency breakdown support.
   AMC | Oil Filtration | 24/7

TURNKEY CAPABILITIES

- COMPLETE SUBSTATION & TRANSFORMER SETUP
- LT, PCC, MCC & APFC MANUFACTURING
- 11 KV VCB & RMU INSTALLATION
- 11 KV HT & LT CABLE LAYING
- RELAY & SECONDARY PROTECTION TESTING
- EARTHING GRID & LIGHTNING PROTECTION
- UTILITY APPROVAL (K-ELECTRIC / DISCOS)
- ENERGISED COMMISSIONING & HANDOVER

WHY TURNKEY WITH US

- Single-point accountability from SLD to utility switch-on
- In-house panel fabrication and direct supply, no middleman markup
- Earthing: copper mesh, chemical pits, target below 1 ohm
- Utility liaison: K-Electric, LESCO, IESCO, FESCO, MEPCO, GEPCO, PESCO, HESCO
- Operator training and complete as-built documentation

OUR COMMITMENT

Safe, reliable and innovative electrical engineering that exceeds client expectations and contributes to a sustainable future.

INSTRUMENTATION & AUTOMATION SOLUTIONS

Advanced instrumentation and automation that improves efficiency, enhances control, ensures safety and enables real-time monitoring of industrial processes.

OUR SOLUTIONS

PLC SYSTEMS
Process control, machine automation and industrial applications: design, programming, installation and maintenance.

HMI & CONTROL PANELS
Custom HMI and control panels for intuitive operation and seamless process control.

FIELD INSTRUMENTATION
Pressure, temperature, level and flow instruments for critical industrial processes.

DRIVES & MOTION CONTROL
VFD installation and programming for efficient motor and machine performance.

SCADA SYSTEMS
Supervisory control and data acquisition for real-time monitoring, including substation SCADA integration.

SENSORS & TRANSMITTERS
Accurate measurement of pressure, temperature, level, flow and other parameters.

INDUSTRIAL NETWORKING
Secure, high-speed communication between field devices and control systems.

AMF / ATS SYSTEMS
Automatic mains-failure and changeover systems for seamless emergency power.

PANELS & INSTRUMENTATION

RELAY & ANNUNCIATION

CONTROL PANEL RELAY

METERING & CONTROL

PANEL WIRING

Capabilities: system design & engineering, installation & commissioning, testing & calibration, maintenance & technical support.

WHAT WE OFFER

CUSTOMISED SOLUTIONS
Tailored to your process requirements.

RELIABLE & ACCURATE
High-performance instruments, precise results.

INTEGRATION EXPERTISE
Seamless integration with existing systems.

IMPROVED EFFICIENCY
Optimise operations, reduce downtime and cost.

ON-SITE SUPPORT
From installation to commissioning.

APPLICATION AREAS

Power plants | Substations | Textile & spinning mills | Steel & induction furnaces | Cement & chemical plants | Food & beverage | Water & wastewater | Commercial buildings | Data centres & telecom
